Brad Thor's Summer 2018 Fiction Pick for THE TODAY SHOW! "Eerie, dark, and compelling, [The Book of M] will not disappoint lovers of The Passage (2010) and Station Eleven (2014)." --Booklist WHAT WOULD YOU GIVE UP TO REMEMBER? Set in a dangerous near future world, The Book of M tells the captivating story of a group of ordinary people caught in an extraordinary catastrophe who risk everything to save the ones they love. It is a sweeping debut that illuminates the power that memories have not only on the heart, but on the world itself. One afternoon at an outdoor market in India, a man's shadow disappears—an occurrence science cannot explain. He is only the first. The phenomenon spreads like a plague, and while those afflicted gain a strange new power, it comes at a horrible price: the loss of all their memories. Ory and his wife Max have escaped the Forgetting so far by hiding in an abandoned hotel deep in the woods. Their new life feels almost normal, until one day Max's shadow disappears too. Knowing that the more she forgets, the more dangerous she will become to Ory, Max runs away. But Ory refuses to give up the time they have left together. Desperate to find Max before her memory disappears completely, he follows her trail across a perilous, unrecognizable world, braving the threat of roaming bandits, the call to a new war being waged on the ruins of the capital, and the rise of a sinister cult that worships the shadowless. As they journey, each searches for answers: for Ory, about love, about survival, about hope; and for Max, about a new force growing in the south that may hold the cure. Like The Passage and Station Eleven, this haunting, thought-provoking, and beautiful novel explores fundamental questions of memory, connection, and what it means to be human in a world turned upside down.

The founder and director of the Thirty Million Words Initiative, Professor Dana Suskind, explains why the most important—and astoundingly simple—thing you can do for your child's future success in life is to talk to them. What nurtures the brain to optimum intelligence and stability? It is a secret hiding in plain sight: the most important thing we can do for our children is to have conversations with them. The way you talk with your growing child literally builds his or her brain. Parent talk can drastically improve school readiness and lifelong learning in everything from math to art. Indeed, parent-child talk is a fundamental, critical factor in building grit, self-control, leadership skills, and generosity. It is crucial to making the most in life of the luck you have with your genes. This landmark account of a new scientific perspective describes what works and what doesn't (baby talk is fine; relentless correction isn't). Discover how to create the best "language environments" for children by following the simple structure of the Three Ts: Tune In; Talk More; Take Turns. Dr. Suskind and her colleagues around the country have worked with thousands of families; now their insights and successful, measured approaches are available to all. This is the first book to reveal how and why the first step in nurturing successful lives is talking to children in ways that build their brains. Your family—and our nation—need to know. *Nominated for the Books for a Better Life Award*

The Storm gives definitive expression to many of Gibran's key themes: the injustice meted out to the poor and the weak; the beauties of nature needlessly destroyed by man; and the innocent purity of young love, so often crushed underfoot by society.

The author believed that entitling the work as a history of India was not accurate and instead refers to it as *India Under British Rule*. He writes the history from 1600 to 1886 as it pertains to the East India Company in the country. India was not, in a legal sense, under British rule for that entire period. They were, however, under British influence as trade routes were established and demand for goods abroad changed the shape of India's economy. Anglophiles and Indian historians alike will find this inside history of the East India Company a valuable resource.
